INTRODUCTION

Final-year Bachelor of Information Technology (Media Informatics) student with a consistently strong academic record (3.73 CGPA). Passionate about 3D modeling, game development, digital media design, and interactive multimedia. Capable of leveraging programming languages and creative software to build engaging digital experiences, from 3D action RPGs to immersive VR applications. Actively seeking a 6-month industrial training placement from 20 September 2026 to 19 March 2027 to contribute technical proficiency and creative design skills to a dynamic team.

EDUCATION

UNIVERSITI SULTAN ZAINAL ABIDIN (UniSZA) BESUT

Oct 2023 - Present

- Bachelor of Information Technology (Informatics Media) (Hons.)
- CGPA: 3.73 (Dean's List on Semester 1 - 5)
- Expected graduation March 2027

WORK EXPERIENCE

SEKOLAH RENDAH AGAMA MUS'AB IBNU UMAIR

Feb - Aug 2023
July - Sep 2025

- Guru Lantikan Sekolah (GLS)
- Facilitated classroom learning and managed daily educational activities for students.

KAFA AL-ANSAR TAMAN SRI RAMPAI

July - Sep 2024

- Guru Lantikan Sekolah (GLS)
- Delivered structured lessons and maintained an organized learning environment.

PROJECTS

SCHIZOMIND VR (FYP)

- Developed an educational VR application simulating schizophrenia using complex auditory and visual distortion mechanics.
- Successfully enhanced user empathy and awareness of schizophrenia, validated through pre- and post-experience symptom-check questionnaires.

C.U.R.E. (3D ACTION RPG) - TEAM

- Teamed to design and develop boss fight mechanics for a 3D action RPG.
- Programmed and debugged C# scripts in Unity to ensure smooth gameplay and character interactions.

CARPENTER'S SHED (3D ISOMETRIC DIORAMA)

- Modeled and textured a highly detailed 3D diorama, utilizing mirror modifiers, screw modifiers, and asset instancing to optimize workflow.
- Applied realistic texturing, lighting, and environmental storytelling to create a compelling "work-in-progress" narrative.

CLEANING ROOM (3D ANIMATION)

- Developed a cohesive 3D animated sequence featuring environmental interactions, utilizing technical skills in keyframing, timeline animation, and character mechanics.

PINK CORNER (DIGITAL VISIBILITY CAMPAIGN) - TEAM

- Executed a comprehensive digital marketing campaign for a local food establishment, establishing their online presence by configuring Google Maps and digital delivery platforms.
- Designed branding assets while tracking and analyzing campaign completion metrics to evaluate digital engagement and overall project success.

SKILL & LANGUAGE

- **Programming & Web:** C#, Python, HTML, CSS, PHP, SQL
- **AI Prompting & Assistance:** Gemini, Claude, ChatGPT
- **Creative & Development Tools:** Unity, Blender, Adobe Photoshop, Adobe Illustrator, Canva, CapCut
- **Productivity:** Microsoft Office (Word, PowerPoint, Excel), Google (Docs, Sheets)
- **Language:** Malay - Native, English - Fluent
- **Soft Skills:** Problem-Solving, Communication, Adaptability, Teamwork, Attention to Detail, Eager to Learn

LEADERSHIP & INVOLVEMENT

Committee Member | Off-Campus Student Committee, UniSZA Besut

Dec 2025 - July 2026

- Media and Publicity Committee Member
- Assisted in designing posters, taking photos, recording videos and editing media.

Program Committee & Facilitator | UniSZA Volunteer Club

8 June 2024

- Organized and executed a cultural games event for local students at MRSM Besut.
- Directed specific interactive game modules, communicated rules, guided participants, and maintained an energetic atmosphere.

CERTIFICATES

Micro-Credential: Fundamentals of Commercial Photography, UniSZA

- Mastered visual strategy techniques to produce high-quality digital assets optimized for social media marketing and promotional campaigns.

Micro-Credential: Camera, Composition & Lens Selection, UniSZA

- Developed technical proficiency in manual camera exposure controls, focal length management, and strategic lens selection across diverse shooting environments.

Short Course: Motion Capture Technology, Kolej Komuniti Selayang

- Gained hands-on experience in tracking, capturing, and processing real-world human movements into digital data for character rigging.

Short Course: 3D Animation Development Technology, Kolej Komuniti Selayang

- Developed technical skills in keyframing, timeline animation, and character rigging mechanics.
